Soccer is

the most popular sport in the world and this includes Canada and Manitoba. Our game is played by over 800,000 registered players across Canada and approximately 18,000 of them are registered in Manitoba.

Our players, coaches, referees, managers, administrators, and volunteers by virtue of being members of the Manitoba Soccer Association (MSA) are also members of the Canadian Soccer Association (CSA). Both organizations are not for profit organizations with the mandate to govern soccer in their respective jurisdictions. We are mandated to provide all participants with the opportunity to enjoy the beautiful game at the level of their choice and to develop to be the best that they can be in their chosen activity. As well the Association is responsible for developing those players, coaches, and referees wishing to participate at the highest possible level by representing Manitoba and Canada.

As members of the MSA the participants are entitled to tangible and intangible benefits that include:
